

# WINCO PRE-KEYED

## Turned, Ground and Polished Shafting with Pre-Machined Keyways

*Available in Mid to High Carbon, High Tensile Alloy Steel,  
Heat Treated or Stainless Steel*

### Advantages

- Turned, ground and polished with standard keyways cut the full length.
- All keyways are accurately machined and straight with no bowing or twisting.
- Special keyways can be intermittent or in multiple locations.
- Can be furnished with a key already inserted assuring a proper fit.
- Avoids the expense of cutting keyways, removing costly production delays.
- Ground to a mirror finish of RMS 8 or better.
